Created by master piano designer, Lothar Thomma, this "concert grand of uprights" instrument brings the very latest in music design and technology to a piano especially suited to professional venues. Re-engineered with quality components, the range of upgrades includes plate modification to accommodate new scales, new calculated string lengths, 100% hornbeam actions, double wheel metals casters and much more. Each piano is produced with precision assembly technology employing hand craftsmanship that distinguishes it throughout the music industry.

Measurements:

Height:	<i>52 inches</i>
Weight:	712 pounds <i>(Boxed, including bench)</i>

**Models and specifications subject to change.*

Vertical Piano

Ritmüller pianos were originally produced in Germany where they established a reputation for innovation and quality that began in 1795. Today the brand is proudly manufactured in Guangzhou, China with a dedication to craftsmanship and state-of-the-art design that reflects both its aristocratic tradition and future-focused commitment to the latest in design & music technology.

Ritmüller pianos are built in the world's largest piano manufacturing center which was the first piano factory in China to be awarded the distinguished ISO 9001 Certification for Quality Control Systems and was also recently awarded ISO 14001 for Environmental Management System compliance.
